

New information was discovered via "The Dansville Express" from December 2, 1886. The following appeared on page 3.

The organ for St. Peter's church which the ladies have worked so industriously for arrived last week and it is now being set up by Mr. Charles Viner of Westfield, Mass., and Mr. W. H. Welch of this village. The organ which occupies the annex built for it a short time ago, is two manual, has a black walnut and decorated front, the pipes being tinted in buff, blue and gold. It was made at Westfield by W. A. Johnson, the specifications being as follows:

GREAT ORGAN.

Open Diapason	56 pipes
Melodia	56 pipes
Dulciana	56 pipes
Principal	56 pipes

SWELL.

Violin Diapason	44 pipes
Stop Diapason, treble	44 pipes
Stop Diapason, bass	12 pipes
Flute Harmonique	56 pipes
Piccolo	56 pipes

PEDAL.

Bourdon	27 pipes
---------	----------

COUPLERS.

Swell to Great
Great to Pedals
Swell to Pedals
Bellows Signal

From the general reputation of the manufacturer we believe the organ will give complete satisfaction, and as it is to be in complete order within the next ten days, our citizens will have an opportunity soon of listening to its tones and of judging of their quality. The organ cost about one thousand dollars.
